

Serial No. 10/760,454
Amendment dated June 22, 2005
Reply to Office Action of March 4, 2005

Docket No. P-0645

Amendments to the Abstract

Please replace the Abstract filed with the original application with the following Substitute Abstract:

A front substrate for a plasma display panel (PDP) and an associated fabrication method are provided. An upper dielectric layer of the front substrate includes a colorant, which causes the dielectric layer to also act as a color filter. The resulting front substrate enhances at least one of color temperature, color purity, or contrast of the PDP without increasing complexity or cost.
